At Heritage Bank, we are making an important investment in our customers' banking security. As of January 25, 2020, Heritage Bank will fully transition its online operations to a new domain: **www.OurHeritage.bank**.

The **www.OurHeritage.bank** address provides robust security and meets strict verification requirements that will help reduce the risk of cyber threats. If you have not already noticed, many banks are moving toward "dot bank" domains in order to improve customer security.

Feel free to begin using **www.OurHeritage.Bank** immediately.

**www.HeritageBank-KY.com** and **www.GrowWithHeritage.com** addresses will remain active during the transition, however, we recommend updating your bookmarks to our new address. In addition, watch for employee email addresses to reflect the new domain.

Thank you for your trust and patronage.
