About Heritage Bank

Heritage Bank was founded in 1990 by a group of local businesspeople concerned about the shrinking access to community banks able and willing to meet regional consumer and business banking needs. Today, Heritage Bank is one of the 10 largest banks in Greater Cincinnati, is expanding its commercial loan operations into the Miami Valley and has forged a joint venture with a national SBA lender. In an era of continued consolidation, Heritage Bank remains committed to independence, the communities it serves and the people who call those communities home.
